

# Jump-start Your Journaling (Leisure Arts #4151) (Better Homes and Gardens Creative Collection (Leisure Arts))

Journaling is the heart and soul of a memorable scrapbook page. While photos capture the readers attention and embellishments add fun, your written words provide the substance needed to set the scene, evoke the emotions, and tell the whole story. This book is divided into 10 sections, each offering a technique for making the act of journaling easier. Look for assistance from published sources or incorporate the direct words of others; plan ahead for an interesting placement on the page; work from lists; write your stories from different points or view; and more. Our suggestions and sample page layouts are all from the pages of Scrapbooks etc A publications.
