Author of the astounding free ebook Wayki Wayki, (which had over twenty thousand global readers in its first year) realised that throughout history secrets have been preserved regarding the human condition, energy, consciousness, history and religion. Curiosity and following synchronicities led him to spend hundred days within an initiatic temple of the mysteries living in a pyramid. Using various techniques to alter his consciousness and physiology he performed a fifty five day silent fast were his consciousness obtained entry into the mystical esoteric world of Hermetic Alchemical Qabalah, which was really a journey to the self. After the depth of this process he was soon then sent high up a volcano to meet someone else, a Scientist and Hermetic who had taught and practiced Merkaba mysticism. This time he was guided one on one through a hundred day Merkaba process where the realms of known reality peeled away, along with many belief systems that our current world feeds us. A Trinity of Wisdom takes us through core elements of truth, philosophy and Hermetic Alchemical Qabalah that were fully gleaned and understood from the other side of the veil.
